Kentucky's modern gun deer season continues

Modern gun deer hunting season opened Nov. 14, and runs through Sunday, Nov. 29. Deer hunters have been afield since September with the opening of archery and crossbow seasons, but these days comprise Kentucky's biggest hunting season annually.

Boasting strong deer populations across the state, Kentucky offers many hunting opportunities for new and experienced hunters to provide a sustainable source of lean protein for the table or for food banks.

Kentucky Fish and Wildlife offers a wealth of resources to assist new and experienced hunters alike. Learn about public lands available for hunting, season dates, licenses needed and more by going online to fw.ky.gov and searching under the keywords, "Deer Hunting." View the 2026-2027 Fall Hunting and Trapping Guide online and download or print the guide as a resource to use in the field. The following tips make the most of a trip afield:

Hunting licenses and permits may be purchased online at Kentucky Fish and Wildlife's website (fw.ky.gov) and at authorized license agents throughout the state. Licenses are available for residents and non-residents, youth and senior/disabled. A statewide or youth deer permit is also required for all license types. For season dates, detailed license requirements and other hunting regulations, visit the Deer Hunting section of the department's website or view and download the 2026-2027 Fall Hunting and Trapping Guide.

Kentucky is divided into four deer zones, based predominantly on the deer density of the counties in each region. Each zone has different method of take restrictions and harvest limits for antlerless deer, however a hunter may take only one buck a year in the state, regardless of zone. Consult the hunting guide for more information on the zone being hunted.

Hunters are encouraged to harvest more does this season, particularly in Zone 1 and 2 counties, to help improve overall herd health. A hunter may harvest an unlimited number of antlerless deer in Zone 1 using the statewide permit and additional deer permits. A hunter may harvest up to four antlerless deer in Zone 2.

Adequate doe harvests are critical for maintaining balanced, healthy deer populations. A balanced buck-to-doe ratio means a more intense rut chasing bucks that are more likely to reach their potential. Fawns are born in a more concentrated window improving recruitment.

Immediately upon recovery of a harvested deer, a hunter must fill out a harvest log consisting of game species, sex, county and date on the back of the hunting license or elsewhere and kept in their possession. Before midnight, each harvest must be reported to KY Fish and Wildlife, even if the hunter is license exempt. Hunters can report their harvest by calling the department's telecheck number at 1-800-245-4263, or by using the online My Profile portal at fw.ky.gov.
