

Two days left to apply for FEMA assistance following April flooding

Kentucky homeowners and renters who experienced damage or loss caused by the April severe storms, straight-line winds, flooding, landslides and mudslides have less than one week left to apply for federal disaster assistance. The deadline to apply is July 25.

HOW TO APPLY FOR FEMA ASSISTANCE

There are several ways to

apply for FEMA assistance:

- Online at DisasterAssistance.gov.
- Visit any Disaster Recovery Center. To find a center close to you, visit fema.gov/DRC, or text DRC along with your Zip Code to 43362 (Example: "DRC 29169").
- Use the FEMA mobile app.
- Call the FEMA Helpline at 800-621-3362. Help is available

in many languages. If you use a relay service, such as Video Relay Service (VRS), captioned telephone or other service, give FEMA your number for that service.

- FEMA works with every household on a case-by-case basis.

FEMA representatives can explain available assistance programs, how to apply to FEMA, and help connect

survivors with resources for their recovery needs.

WHEN YOU APPLY, YOU WILL NEED TO PROVIDE

A current phone number where you can be contacted.

- Your address at the time of the disaster and the address where you are now staying.
- Your Social Security Number.
- A general list of damage

and losses.

- Banking information if you choose direct deposit.
- If insured, the policy number or the agent and/or the company name.

Survivors should keep their contact information updated with FEMA as the agency may need to call to schedule a home inspection or get additional information.

Disaster assistance is not a

substitute for insurance and is not intended to compensate for all losses caused by a disaster. The assistance is intended to meet basic needs and supplement disaster recovery efforts.

For more information about Kentucky flooding recovery, visit www.fema.gov/disaster/ 4864. Follow the FEMA Region 4 X account at x.com/femaregion4.

AAA: Slight break at the pump in Kentucky

Gas prices in West Central Kentucky are five cents lower this week, at \$2.761 per gallon, according to AAA East Central's Gas Price Report.

NATIONWIDE TRENDS

As the summer travel season continues, the national average for a gallon of regular has dipped by a penny over the past week to \$3.14. Pump prices are matching the summer of 2021, the last time seasonal gas prices were this low. One of the main factors — crude oil prices under \$70 per barrel — is helping to keep gas price increases to a minimum. Today's national average is 36 cents lower than a year ago.

According to new data from the Energy Information Administration (EIA), gasoline demand decreased from 9.15 million barrels per day last week to 8.48. Total domestic gasoline supply increased from 229.5 million barrels to 232.9. Gasoline production decreased last week, averaging 9.1 million barrels per day.

At the close of last Wednesday's formal trading session, West Texas Inter-

mediate fell 14 cents to settle at \$66.38 a barrel. The EIA reports crude oil inventories decreased by 3.9 million barrels from the previous week. At 422.2 million barrels, U.S. crude oil inventories are about 8% below the five-year average for this time of year.

The national average per kilowatt hour of electricity at a public EV charging station stayed the same this past week at 36 cents.
