The Paducah Chiefs provide a place for college players to develop their skills in a competitive summer league. They play their home games at Brooks Stadium. Many players who have played for the Chiefs, have seen major improvements in their skill. According to the Paducah Chiefs website, "A large percentage of the 26-player roster is composed of players originally from the Paducah area. The players who don't call the city home are housed by host families for the duration of their 40-game season."

Speaking to head Coach Leon Wurth really showed off how much baseball experience he has. He has spent many years scouting prospects for the New York Yankees organization, as well as coaching at Murray State University and Georgia Tech University. Now, he is fully committed to the Paducah Chiefs. He is not the only Coach on the Chiefs staff with experience. When asked, Coach Wurth mentioned several coaches. He mentioned Kent Wallece, locally from Reidland, KY , a former D1 pitcher at Murray State and SIU, who also had a run as a player in the minor leagues and in Mexico. Also mentioned was Scott Tucker, former player at Murray State as well as former high school baseball coach.

For this season, Coach Wurth has not yet met the team. The team meets for the first time on May 27, which will be the start of the new season, where the coaches meet their new players, and everything is go time from then on. Coach Wurth stated, "About 90% of the players on the team are new to the team this season." When asked about some of the players, Coach Wurth mentioned both Hayden Alexander and Nate Lang. Hayden Alexander, a Mayfield

The Chiefs look to make an impact this season, so go support your local team at Brooks Stadium, on their Facebook page, GameChanger app, or on the radio.

## REQUEST FOR QUALIFICATIONS

In accordance with 7 CFR 1780.39, the Livingston County Fiscal Court, on behalf of the City of Smithland and the Ledbetter Wastewater Utility District, is accepting Statements of Qualifications for the Smithland-Ledbetter Wastewater Regionalization Project. This procurement seeks professional services for the feasibility study, preliminary engineering planning, development of scope and cost estimates, final design, preparation of bidding and contract documents, assistance during bidding, construction administration, construction observation/inspection, and other related services associated with the potential consolidation of the Smithland and Ledbetter wastewater systems. The initial phase of this project involves conducting a feasibility study to evaluate the potential regionalization of the Smithland and Ledbetter wastewater systems. This study will assess the viability of consolidating the two systems into a single, regionalized utility and may lead to the formation of a regional wastewater commission to oversee the development and operation of a combined system.

The selected firm will be responsible for providing a full range of planning and engineering services, including but not limited to:

- Evaluation of existing infrastructure for both systems;
- Analysis of current and projected treatment needs and system capacities;
- Identification of opportunities for system interconnection, shared treatment facilities, or other efficiencies;
- Cost-benefit analysis comparing regionalization to continued separate operations;
- Review of regulatory, permitting, and environmental implications;
- Exploration of governance models and legal frameworks to support a regional wastewater commission;
- Recommendations for next steps, including conceptual designs, phasing strategies, and preliminary project budgeting;
- Preparation of materials necessary to support funding applications and coordination with relevant agencies.

It is anticipated that this project may be funded in phases through a combination of federal, state, and local resources, including but not limited to the Delta Regional Authority, HUD Community Development Block Grant (CDBG) Program, USDA Rural Development, EPA Clean Water State Revolving Fund (CWSRF), Kentucky Infrastructure Authority's WWATERS Program, RDAAP, and other applicable funding sources.

Responding firms should demonstrate experience in regional utility planning, wastewater system evaluation and design, multi-agency coordination, and familiarity with federal and state funding requirements.

In order to be considered, proposals must be received by 12:00PM local time (CST) on June 13, 2025. Two (2) copies of the proposal will be required if submitted via hard copy. Electronic submissions will be accepted. Submissions should be clearly labeled Smithland-Ledbetter Wastewater Regionalization Project. The Livingston County Fiscal Court reserves the right to reject any or all proposals.

For a copy of the full Request for Qualifications including scoring criteria, please contact Amy Frogue at amy.frogu@ky.gov or by phone at 270-886-9484. Questions concerning this Request for Qualifications should be addressed in writing to Amy Frogue, 300 Hammond Drive, Hopkinsville, Kentucky 42240, email: amy.frogu@ky.gov. All questions should be submitted in writing no less than 5 days prior to the deadline on June 13, 2025.

The Livingston County Fiscal Court will adhere to the provisions of Title VI of the Civil Rights Act of 1964, and Section 3 in the implementation of this project. No person shall be excluded from participation in, denied benefits of, or subjected to discrimination in the implementation of this program on the grounds of race/ethnicity, color, religion, disability, national origin, sex, familial status, gender identity, or sexual orientation. Attention is particularly called to the requirements as to conditions of employment to be observed under the contract, Section 3, Segregated Facilities, Section 109, Title VI, E.O. 11246, the Anti-Kickback Act and Section 504 requirements. Minorities are encouraged to apply.
