## IN THE CLASSIFIEDS!

Shopping locally not only means getting to see the same friendly faces each time you patronize a nearby business, it also means keeping money in your community. A 2018 study from American Express, the company that founded Small Business Saturday (which is celebrated the day after Black Friday), and the National Federation of Independent Business found that roughly two-thirds of every dollar spent at a small business ultimately stays in the local community. That boils down to 67 cents out of every dollar. The American Independent Business Alliance also references the "local multiplier" regarding local spending. This occurs when people spend at a locally owned and independent business instead of chain stores or mega online retailers. Although the exact amount of dollars recirculated by locally owned businesses varies due to certain unique criteria, retail studies conducted by Civic Economics has found a person's dollars at these locally owned businesses recirculate through the local economy two to four times more than money spent at non-local companies. This money helps generate more local wealth, charitable contributions and jobs.
