Week 2

From page 1A

Much work is left to be done, but I'm happy to say some legislative efforts have prompted the executive branch to take action to better protect our detained youth.
First, in the 2022 interim, the Legislative Oversight and Investigations Statutory Committee and the Interim Judiciary Committee recommended that DJJ separate those inside facilities based on the severity of the offense and by gender. It's concerning these recommendations were only taken following the terrible story of Adair County's incident.
Nevertheless, the Senate initiated a DJJ working group which met extensively over the session's break. The workgroup communicated its recommendations to Governor Andy Beshear. Recommendations that have been met as of this legislative update include:
• Provide 24/7 Kentucky State Police presence at facilities housing the most violent offenders.
• Identify specific immediate, intermediate, and long-term resources needed to address the crisis and gaps in the law that can aid in the department's efforts.
• Make trauma care available to staff and youth victims in DJJ facilities.
• Develop and maintain a tracking notification system concerning the transportation and status of youth offenders so that parents, legal guardians, and law enforcement entities can be aware.
• Still, lawmakers have made recommendations to the Governor that remain unmet,

some of which could be the most meaningful. They are:
• Consider replacing department leaders who have failed to create a culture within DJJ where employees and youth can feel safe and begin a nationwide search for qualified replacements. The DJJ workgroup has concluded a toxic culture exists within the department that money alone could never repair.
• Provide unfettered access so our workgroup can interview cabinet and department officials but, most importantly, the rank and file employees who have indicated fear of retaliation from those above them.
• Allow for an independent inspection of DJJ facilities to determine if health and safety measures are up to expectation and if policies and procedures are being met.
• Explain failures to implement past recommendations.
DJJ workgroup leaders outlined met and unmet recommendations during a press conference on February 2. They also formally requested the state auditor of public accounts to contract with an independent organization for a full audit of DJJ.

The final bill passing the Senate this week was Senate Bill 20, which would prohibit the application known as 'Tik Tok' on all state government devices.
Following the recent incident involving a balloon used for spying on some of our nation's most sensitive military sites, it's imperative that we swiftly pass this legislation. Republicans and Democrats alike, agree that need to do everything in our power to prevent hostile actors from accessing state government information. The bill will now head to the state House of Representatives for consideration.
In closing, several legislative measures were introduced in week two, including an education-centric bill focused on strengthening parent voices in the school system, a bill ensuring the communist Chinese government cannot access state government information, and another addressing concerns with the state's power grid. Rest assured, your elected officials remain engaged in light of the rolling blackouts some Kentuckians have experienced this winter.

EMERGENCY FOOD AND SHELTER PROGRAMS FUNDS

GREEN COUNTY has been awarded federal funds made available through the Department of Homeland Security (DHS), Federal Emergency Management Agency under the Emergency Food and Shelter National Board Program.

EFSP Phase 40 funds that Green County will receive through the State Set-Aside fund is meant to supplement emergency food and shelter programs in the county.

The selection was made by a National Board that is chaired by the U.S. Department of Homeland Security's Federal Emergency Management Agency and consists of representatives from American Red Cross; Catholic Charities, USA; National Council of the Churches of Christ in the USA; The Jewish Federations of North America, The Salvation Army; and, the United Way Worldwide. The Local Board was charged to distribute funds appropriated by Congress to help expand the capacity of food and shelter programs in high-need areas around the country.

The Green County Local Board made up of the Green County Judge/Executive, Ministerial Association, Salvation Army, American Red Cross, Catholic Charities, and other groups will determine how the funds awarded to Green County are to be distributed among the emergency food and shelter programs run by local service agencies in the area. The Local Board is responsible for recommending agencies to receive these funds and any additional funds made available under this phase of the program.

Under the terms of the grant from the National Board, local agencies chosen to receive funds must: 1) be private voluntary non-profits or units of government, 2) be eligible to receive Federal funds, 3) have an accounting system, 4) practice nondiscrimination, 5) have demonstrated the capability to deliver emergency food and/or shelter programs, and 6) if they are a private voluntary organization, have a voluntary board. Qualifying agencies are urged to apply.

The Green County Emergency Food and Shelter Board has distributed funds previously with Lake Cumberland Community Action Agency, Inc. serving as Local Recipient Organization (LRO). This agency was responsible for providing assistance to those in emergency situations with food, rent, and utilities during the last EFSP phase.

Public or private voluntary agencies interested in applying for Emergency Food and Shelter Program funds must contact the Judge/Executive's Office at 203 West Court Street, Greensburg, KY 42743 or call 270.932.4024 for an application. The deadline for applications to be received is March 1, 2023.
