# **PUBLIC NOTICE**

# **Kentucky Power In-Person Open House**

Kentucky Power representatives plan to upgrade the local electric transmission grid in Pike County. The Breaks-Dorton Transmission Improvements Project involves rebuilding about 18 miles of electric transmission line, building one new substation, upgrading two substations and retiring one substation.

This project allows crews to retire about 27 miles of transmission line that dates back to the 1960s. Installing modern equipment strengthens the power grid and reduces service interruptions to customers.

The project team is reviewing route options to build the new power line. Kentucky Power representatives invite community members and landowners in the project area to an in-person open house to learn more and share feedback. Attendees may come and go at any time during the two-hour event.

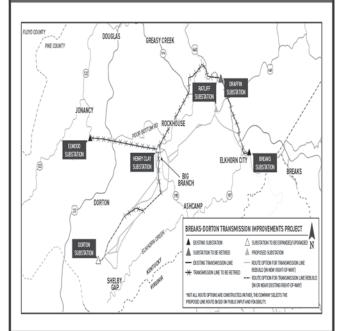

> **Thursday, January 9** from 5:30 p.m. - 7:30 p.m. in the Shelby Valley High School Student Center, 125 Douglas Park in Pikeville.

Visit KentuckyPower.com/BreaksDorton to learn more about the project and view a virtual open house.
