Who cares about public notices?

YOU SHOULD

You have the right to know what's happening in your community.

Public notices – information local governments are obligated to provide citizens – are required to be published in local newspapers to provide a public record that's accessible to everyone.

Public notices keep you informed about your government. But, in some states legislators are trying to keep public notices from appearing in local newspapers. This severely impacts government transparency and, in turn, limits the public's right to hold them accountable for their actions.

Let your state legislators know that you value being able to access notices in your newspaper and that they are worth the investment.

Protect public notices in newspapers and protect your right to know.
