Friday Night On Main

Cotter Hill and the Chris Linton Band headlined Friday Night On Main hosted by the Harrodsburg-Mercer County Tourist Commission at Olde Town Park on Friday, Aug. 8. Organizers are calling the event the best attended one in the history of the series. The next Friday Night On Main happens on Friday, Sept. 12, starting at 6 p.m.

Wrenley Blevins matched with the balloon dog she got at Friday Night On Main.

We hope Houston Coleman doesn't mind we gave away his secret identity as Spider-Man.

Lily and David Greenburg got their picture taken inside a Harrodsburg fire engine Friday.

Joey and Jonathan Ward were having a great time in downtown Harrodsburg.

Kentucky

from 4B

301 KAR 2:225. Dove, wood duck, teal, and other migratory game bird hunting.

This administrative regulation establishes seasons and bag limits within federal migratory bird hunting frameworks established in 50 C.F.R. Parts 20 and 21 according to the U.S. Fish and Wildlife Service (USFWS). In addition, it establishes requirements for the hunting of migratory birds. This amendment reduces the length of the September teal season from nine days to five days. Further, this amendment disallows the use of decoys by dove hunters on department-controlled lands during the month of September.

Effective May 6, 2025.

301 KAR 2:300. Black bear seasons and requirements.

This regulation establishes black bear chase and hunt seasons, chase and hunt requirements, bag limits, and legal methods of take and is necessary to provide reasonable hunting and chasing opportunity, while properly managing bear populations in Kentucky. This amendment establishes a 14-day hunting season in Clinton and Wayne Counties as well as adds the Siberian Laika to the list of approved dogs that may be used during bear chase and the hunt with dogs seasons. The 14-day season in Clinton and Wayne Counties is necessary to attempt to reduce the level of crop depredation in the area.

Effective June 18, 2025.

Title 301 Chapter 003 – Hunting and Fishing

301 KAR 3:005. Public use of newly acquired or newly managed lands.

This regulation establishes provisions for the department to place restrictions for hunting, fishing, trapping and access for newly acquired or managed lands or other lands for safety or wildlife management concerns. The amendments change the time allowed for temporary restrictions on newly acquired or managed lands, increasing the duration from one year to three years. It also establishes the closure of areas to hunting, fishing or trapping when said properties are incompatible for those activities or deemed unsafe. This amendment is necessary to expand the time available to promulgate permanent regulations, prepare properties for public use and perform wildlife or habitat management activities for newly acquired or managed lands. The amendment also was necessary to establish public safety protections for temporary or long-term safety concerns.

Effective April 2, 2025.

Title 301 Chapter 005 – Licensing

301 KAR 5:022. License, tag, and permit fees.

This administrative regulation establishes fees and terms for licenses, permits, and tags sold by the Department of Fish and Wildlife Resources. This amendment creates a non-commercial foxhound training enclosure permit to allow operation of foxhound enclosures of 40 to 200 acres. This amendment was necessary to

create the new noncommercial foxhound training enclosure permit. These smaller enclosures were previously permitted under 301 KAR 2:081, however, they are being moved to 301 KAR 2:041 with other foxhound training enclosure regulations.

Effective June 18, 2025.

For updated information about proposed and recently enacted amendments to administrative regulations, visit fw.ky.gov.

Additional information about changes to administrative regulations is available through RegWatch, a free service that enables users to register to be notified of changes to existing administrative regulations or to receive notice of newly proposed regulations. Notifications are sent for four years after initial sign-up. More information about the service is available via the KAR FAQs online at legislature.ky.gov.

Ephraim

from 2B

that they are trying to give back and support the community,” said Smith.

This is the first time Ephraim has donated Guardian Caps in bulk to a local football program, but it is something they will explore more in the future, according to Spoonmore.

“One of the things we’ve been trying to do over the last few months is be as supportive of the high schools as we possibly can. This was really the first opportunity we’ve had to do Guardian Caps. We look forward to working with other high schools and middle schools to do similar things,” said Spoonmore.

Past studies on Guardian Caps have yielded somewhat inconclusive results. Now that they’re mandatory at the highest level of the sport, it’s much harder to test their practical benefits or quantify their positive

effects. However, anecdotally, they’ve already made a significant difference for the program as a whole, according to King Middle School football Head Coach Marshall Marcum and Titan football Head Coach Craig Yeast.

“Since we’ve gotten those, we have not even been close to having a concussion, and we’ve been doing a little beating and banging. Every year, we have at least three or four, and this year we haven’t even had a young man with a headache. We really appreciate Ephraim McDowell Health for providing this unbelievable safety for all of our players. When I look at it, it’s not necessarily just about football, but really more about the safety of the kids in our community who play in the football program,” said Yeast.

Schedule of Events

Thursday Aug. 14

- 5pm Disney Princess Meet & Greet
- 7pm Baby Show
- 8pm Villians Show

Inflatables, Yard Games, Picnic Areas, Giant Mural

Friday Aug. 15
