## •COUNCIL *Continued from page A1*

6 leaks had been addressed so far. The others are marked, and about half of the overall work has been completed.

### New Business

The Council discussed the possibility of a new 10,640 square foot Dollar General, which would be located at the corner of Main Street and Hollander Drive, and heard a first reading of the zoning change for that specific tract of property.

Dollar General would be leading the building from the investment company responsible for building the structure.

The parking lot will only be accessible from Hollander Drive. There will be no entrance from Main Street.

A public hearing was previously held where there were no public objections to re-zoning the lot from residential to commercial, to allow for the construction.

The only requests from surrounding neighbors were for vegetative/property screens at the property lines.

[The Council heard a second reading at their special called meeting Friday, January 20, but tabled the item pending further discussion with the appropriate officials pertaining to water lines.]

The Council also approved the audit of the fiscal year ending June 30, 2023.
