

# Raider Football Youth Camp

### Special to the News-Herald

The Hart County High School football program recently hosted its annual Raider Football Youth Camp, drawing nearly 100 eager young athletes from across the community. The two-day camp, held at Raider Field, welcomed kids ranging from 1st through 8th grade for an introduction to football fundamentals, teamwork, and

Raider pride.

Throughout the camp, participants rotated through stations led by Hart County coaches and current varsity players, learning essential skills like passing, catching, blocking, and tackling. The hands-on instruction gave the young athletes a chance to sharpen their abilities while building confidence and enjoying friendly competition.

“It’s incredible to see so many kids out here wanting to learn and be a part of Raider football,” said Head Coach Chad Griffin. “This camp is all about giving back to our community and helping the next generation of players develop a love for the game.”

The camp concluded with a showcase where campers displayed what they learned in front of family

and friends. Each participant received a camp T-shirt and plenty of encouragement to continue working hard both on and off the field. The success of this year’s camp highlights the commitment of the Raider football program to fostering future athletes. We hope their experience the athletes to one day wear the Raider uniform under the Friday night lights.

## 5 Fun Facts About July

July is synonymous with fun in the sun. In the northern hemisphere, July is typically characterized by sunny days, warm weather and long hours of daylight, making it an ideal month to enjoy a little rest and relaxation. Though it might be a great time for some R&R, July also boasts an interesting history. As revelers soak up some sun this summer, they can ponder these fun facts about the month of July.

1. July is named after a person whose been famous for thousands of years. According to the Farmer’s Almanac, Roman dictator Julis Caesar developed the precursor to the Gregorian calendar used today. Though that made him worthy of a month named in his honor, it didn’t do much to protect him during his life, as Caesar was famously assassinated in 44 B.C.
2. July is a celebratory month for fans of revolution. American Independence Day (July 4) and Bastille Day (July 14), which commemorates the storming of the Bastille and the dawn of the French Revolution in 1789, are among the notable revolutionary moments celebrated in July.

3. Baseball historians know that many significant events in the game have taken place in July, and some records set in the month have withstood longer than others. On July 12, 1931, Mel Ott of the New York Giants hit his 100th career homerun, becoming the youngest player to reach that milestone. Ott was 22 years and 132 days old when he set the mark, which still stands today.
4. One of the more famous statements in United States history was uttered in July, though it wasn’t within American borders or even on the planet Earth. On July 20, 1969, American astronaut Neil Armstrong, after stepping onto the surface of the moon, declared, “That’s one small step for man, one giant leap for mankind.”
5. Two men who played integral roles in the American colonies gaining their independence from Great Britain both passed away on July 4th, the day that celebrates that very independence. On July 4th, 1826, former presidents John Adams and Thomas Jefferson, who were once friends, then political rivals and, finally, friends again, passed away within hours of each other.
