WEATHER TRIVIA™

Q: What was the lowest pressure attained by an Atlantic hurricane?

A: 26.13 inches; Hurricane Gilbert, Sept. 14, 1989

RealFeel Temperature® is the composite index of effective temperature based on eight weather factors. UV Index: Higher index numbers indicate greater eye and skin exposure to ultraviolet rays.

Ryan Blaney and his team celebrate winning the Coke Zero Sugar 400 on Saturday at Daytona International Speedway.

Blaney wins regular-season finale at Daytona

Field Level Media

Ryan Blaney put Ford back into Victory Lane for the first time in nearly three months Saturday night and gained momentum heading into next weekend's playoff opener. The 2023 NASCAR Cup Series champion was first to the checkered flag in a frantic, four-wide finish in Saturday night's regular-season finale, taking the Coke Zero Sugar 400 at Daytona International Speedway in Daytona Beach, Fla. Running 13th with two laps left, the Team Penske driver stormed past Cole Custer on the final lap and nipped Daniel Suarez by 0.031 seconds for his second win this season

and first for Ford since Blaney won at Nashville on June 1. Justin Haley, Custer and Erik Jones completed the top five. "What a wild last couple of laps," said Blaney, who led 27 laps and won for the second time at Daytona (August 2021). "Cole and I waited and waited. He made a good move to get to the top, and we were able to get good shoves. ... I was able to get clear on the top and just hold out for the win." A Ford won for the third time in the past five Daytona races. Points contenders Tyler Reddick and Alex Bowman, 15th and 16th, respectively, got caught up in wrecks not of their making within the first 30

laps. The second one, a giant pile-up that damaged Bowman's ride, solidified Reddick in the 16-car championship field made up of 14 winners, Reddick and Bowman, who made it in despite a destroyed Chevrolet. A win by any of the four drivers behind Blaney would have eliminated Bowman. Chris Buescher was 17th in points and in a must-win situation, but he lost ground when leader Joey Logano spun in front of him with 12 to go. "When he got tagged or turned or whatever, we checked up and lost our momentum and all kind of spots," said Buescher, one of three RFK Racing drivers to miss the postseason. The playoffs begin next

Sunday night with the Round of 16 at Darlington in the Labor Day classic Southern 500. The 160-lap race's first major incident occurred when Todd Gilliland's car moved left off Turn 4 while running beside Reddick's No. 45 Toyota, which hit the inside wall beside the apron and had its nose buckle significantly. But "The Big One" happened on Lap 27 when contact to third-place Bubba Wallace turned the No. 23 Toyota down the track, pinched Logano's Ford and sparked a hefty mess on the 2.5-mile track's frontstretch. In the 12-car carnage, Bowman's No. 48 Hendrick Motorsports Chevrolet crashed against the outside wall under the flagstand, crumpling the front area of the car, sending it to the garage and creating a brief red-flag condition on Lap 29.

Public Notice

The U.S. Department of Commerce, Economic Development Administration (EDA) is considering a request for Federal assistance from the City of Springfield to construct a KY 150 Bypass Sewer Extension and City Barn Pump Station Upgrade Project in Washington County, Kentucky. Pursuant to the National Environmental Policy Act (NEPA) and the National Historic Preservation Act (NHPA), EDA is conducting an assessment of the potential of the proposed project to affect the environment and/or historic properties. Notice is hereby given that the project is proposed to be located in, or may affect, a floodplain and/or wetland as defined by Executive Order (EO) 11988 and/or EO 11990. The project includes approximately 7,400 linear feet of new gravity sewer, one regional pump station upgrade with generator, and 6,900 linear feet of new 8-inch force main. The project will eliminate three aging and undersized existing pump stations. The construction will begin at the new regional pump station located at the corner of US Hwy 150 and Kentucky 528. The Latitude is 37.706163 and Longitude is -85.225993. The 8 inch force main will parallel Lincoln Park Rd (KY 528) then turn west along Hwy 555. All of the force main will be within the right-of-way. The gravity sewer line will also begin at the regional pump station. Some of the line will also parallel KY 528 and end at the City Barn Pump Station. The other gravity line will begin at the new regional pump station and run parallel to KY 150 Bypass and end at the Industrial Park Pump Station. Project information is available for review at the Springfield Water and Sewer Commission's office located at 603 West Main Street, Springfield, Kentucky 40069. Their phone number is (859)336-5454. If you have any information regarding potential impacts to historic properties or environmental resources including wetlands or floodplains associated with this proposed project, please provide any comments by email to ATRO-REO@eda.gov. Comments received by 5:00 pm eastern on September 26, 2025 will be considered. A copy of the NEPA/NH PA decisional document will be available upon request from ATRO-REO@eda.gov.
