Now here's a tip!

by Jo Ann Derson

"Want to keep your pants from creasing on the hanger? Grab an empty paper towel tube, and slit it down the side. When you slip it over the bottom of the hanger, it creates a curve for the pants to lie across, and no more crease!" -- M.U. in Colorado

\* To prevent candle wax from sticking to a candleholder, swipe the inside with a little olive oil. It'll do the trick!

\* Just in time for soup season (and my new year's resolutions), here's a great fat swap: Drain and rinse two cups of white beans and puree with a cup of no-sodium vegetable broth. You can use this as a thickener in place of heavy cream for soups and stews.

\* Experts say that those who write down or journal their nutrition and exercise are more likely to keep it up. This can be as simple as a pencil and notebook paired with a calorie guidebook or one of the many great apps for your smartphone. In any case, set yourself up for success this year. You deserve it!

\*\* "Cutting corn off the kernel can be tricky business, but you only need to recruit the right equipment. The next time you're making corn for dinner, grab a Bundt pan. The corn gets set upright in the center and you cut down. The corn falls right into the pan on all sides." -- A.S. in Texas

\* A can opener's crevices can be cleaned by "opening" a length of waxed paper. Kitchen scissors can be sharpened by folding a piece of aluminum foil and cutting it with the scissors.
