Greenway Trail expansion meeting postponed

PADUCAH — The city of Paducah has postponed a public meeting originally set for Wednesday to present a preliminary plan for the expansion of the Greenway Trail and bike lanes.

City leaders decided to cancel the meeting because of Wednesday's severe weather outbreak and heavy rainfall expected to cause significant flooding in the week ahead.

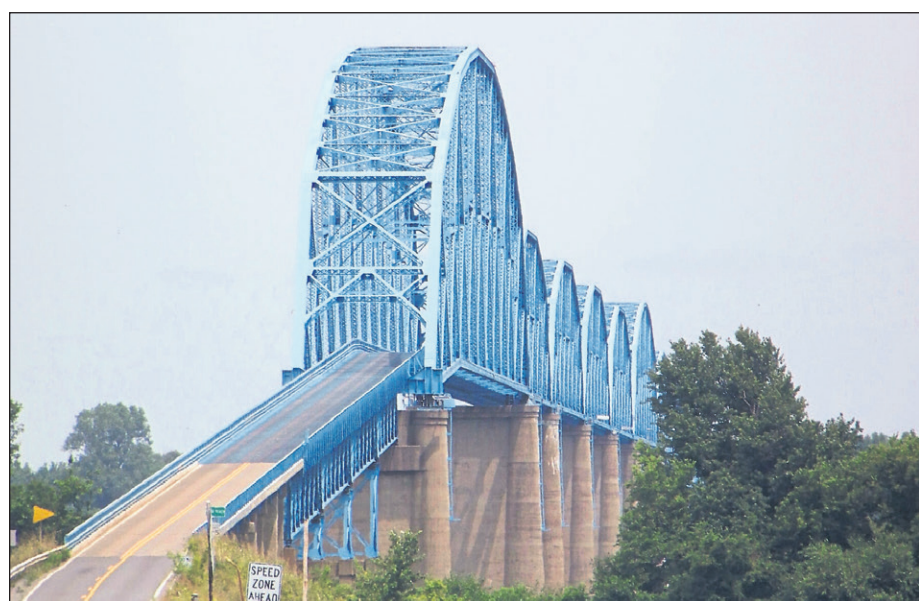

In a news release about that decision, the city said it will announce a new date for the public meeting and the launch of a new survey about the project at a later time.

Once it is rescheduled, those who attend the meeting can expect a brief presentation that

will include an overview of the process so far and a summary of the feedback the city has received to date.

Attendees will also be able to rotate through a series of stations on topics that the city said will include "the layout of the first phase of the trail expansion, prioritization of trail amenities, safe trail design options, and options for future trail expansions within Paducah and regionally," the city said in a news release. At each station, members of the Greenway Trail Steering Committee will provide more details and collect new feedback from the community.

The Sun will publish the new meeting date once it is announced by the city.

Temporary daytime closures planned for Brookport Bridge

PADUCAH — A contractor for the Kentucky Transportation Cabinet plans temporary daytime closures of the U.S. 45 Ohio River "Brookport" Bridge, which connects Paducah and Brookport, Illinois, for the annual inspection of the historic 1929 structure beginning Monday, April 7.

KYTC said the inspection is a necessary safeguard that will provide a hands-on and comprehensive evaluation of the bridge's structural integrity, components, and overall condition to maintain the safety of the traveling public and prioritize future maintenance projects.

Due to narrow lane widths making it impossible to do while traffic is using the bridge, the inspection will require daytime closures, with the first round scheduled for Monday through Friday, April 7 to 11, 8 a.m. to 3 p.m. on weekdays only.

The second round of daytime closures is scheduled for Monday,

April 28, to Friday, May 2, also from 8 a.m. to 3 p.m. on weekdays only.

Drivers will still be able to use the bridge during traditional morning and evening commute hours. During the bridge closures, drivers should detour via the Interstate 24 Ohio River Bridge between Paducah and Metropolis, Illinois.

KYTC said the inspection is required by the Federal Highway Administration, with a specific timeline for completion to maintain regulatory compliance.

The inspection, known as a nonredundant steel tension member inspection, typically occurs each April on the Brookport Bridge and was unable to be delayed, despite construction on the I-24 Ohio River Bridge which has reduced traffic to one lane in each direction. Factors such as its substandard weight limit, the increased traffic resulting from the I-24 construction, and design considerations all con-

tribute to the urgency.

KYTC and the Illinois Department of Transportation have made arrangements for the inspection team to quickly clear the Brookport Bridge if an incident occurs that blocks the I-24 Ohio River Bridge, and the Brookport Bridge is needed for a detour.

Note that semis and other commercial vehicles are not permitted to cross the Brookport Bridge due to weight, height, and width restrictions.

KYTC District 1 will provide traffic updates if the inspection is completed earlier than expected.

Contour cancels Thursday morning flight out of Barkley

PADUCAH — Barkley Regional Airport on Wednesday announced that its service carrier, Contour Airlines, had canceled Thursday morning's departure flight.

The airline also canceled an inbound flight to Paducah from Charlotte, North Carolina, that had been scheduled to Wednes-

day night. Barkley Regional Airport made the announcement before Wednesday's severe weather began.

Airport officials advised passengers who have questions to communicate with Contour directly to confirm the cancellations and to make other travel arrangements.
