Notice of Kentucky Power Company's Application
for Approval of an Amended Environmental Compliance Plan, Recovery of Additional Costs Through Amendment of the Company's Tariff E.S.,
and for All Regulatory Approvals Necessary to Continue Taking Capacity and Energy from its Coal-Fired Mitchell Plant After December 31, 2028

PLEASE TAKE NOTICE that Kentucky Power Company will file on or after June 30, 2025 an application with the Public Service Commission of Kentucky seeking approval of its amended environmental compliance plan to add Project 23 to Kentucky Power's existing environmental compliance plan (Compliance Plan) and seeking all required regulatory approvals for Kentucky Power to make the investments necessary to continue taking capacity and energy from its Mitchell Plant after December 31, 2028. Kentucky Power also will seek approval of amendments to its Tariff E.S. (Environmental Surcharge) to reflect the Compliance Plan and to implement a revised Environmental Surcharge to recover the costs of the Compliance Plan. Kentucky Power's application has been assigned case number 2025-00175.

Project 23 comprises the installation of a flue-gas desulfurization biological treatment system with ultrafiltration at the Mitchell Plant, which was installed and fully in-service as of August 4, 2024, and is currently being paid for entirely by Wheeling Power Company, the other 50% undivided owner of the plant. Project 23 is required for compliance with the Steam Electric Effluent Limitation Guidelines Rule issued by the United States Environmental Protection Agency in order to allow its Mitchell Plant to continue operating as a coal-fired generating facility after December 31, 2028.

The Environmental Surcharge rate changes monthly. The most recent Environmental Surcharge rate for the April 2025 expense month, which was billed in June 2025, was 6.0495% of revenue for residential customers and 10.2106% of revenue for all other classes. Using the April 2025 rate, the addition of Project 23 would result in an estimated increase in the Environmental Surcharge rate from 6.0495% to 8.1162% for residential customers and from 10.2106% to 13.6990% for all other classes.

Kentucky Power is proposing that the changes to the Environmental Surcharge associated with Project 23 go into effect with the January 2026 billing cycle, which begins December 31, 2025. The impact on the total monthly bill amount for residential customer classes is estimated to be an increase of 2.02%, and the impact on the total monthly bill amount for non-residential customer classes is estimated to be an increase of 1.99%. For the average residential customer using 1,189 kWh per month, the increase in the customer's total monthly bill is estimated to be \$3.68.

Information regarding the effect on customer bills by customer classification is presented in the table below:

Customer Classification	Annual \$ Increase for Class	Annual Percent Change	Annual Average Usage (kWh)*	Monthly Average Usage (kWh)*	Monthly Average Customer Demand (kW)*	Current Monthly Average Bill \$*	Proposed Monthly Average Bill \$	Monthly \$ Increase	Monthly Percent Increase

Birds from A-5

clarity comes with the birds. For working-class people, stillness is a luxury.

Parks, birdsong, and nature are a public good—underfunded, overlooked, but vital.

The house sparrow doesn't live in a world built on urgency. One where choosing peace over hatred feels like rebellion.

Consumerism tells us to chase more.

Birds remind us that enough is already here.

A bird doesn't drop bombs.

A goldfinch doesn't shoot up a school.

A bald eagle doesn't know what state propaganda is.

Maybe we could learn something from

our feathered friends—especially the lovebirds.

Maybe it's time we remembered how to fly.

Not for glory. Not for power.

Just to break free of a world designed to keep us low to the ground.

REQUEST FOR PROPOSALS FOR GIS EQUIPMENT AND SOFTWARE

Rattlesnake Ridge Water District (RRWD) is requesting proposals for GIS location and placement of meter equipment. The equipment is intended to help locate lines, valves, meters, etc. and to provide Rattlesnake Ridge Water District with more accurate representation of their system. Any company interested in being considered in providing Rattlesnake Ridge Water with these types of services may do so by sending a statement of qualifications, to Mr. Steve Ison, Chairman, RRWD, 5302 S State Highway 7, Grayson, KY 41143. Proposals must be received by 1:00 P.M., local time, Thursday July 9th 2025.

Sources of funding for this project will come from The Cleaner Water Act Grant through KIA.

RRWD reserves the right to reject any and all responses, to waive any technicalities, and to negotiate with the respondent who most nearly meets the project requirements. RRWD is not responsible or liable for any costs incurred by consultants replying to this request. RRWD is an equal opportunity employer and encourages responses from all qualified firms.
