ROWAN COUNTY SCHOOL DISTRICT Protection of Pupil Rights Amendment (PPRA) 2025-2026

The Superintendent shall establish a procedure for information access in compliance with the Protection of Pupil Rights Amendment (PPRA)(09.14).

Surveys of Protected Information

The District shall provide direct notice to parents/guardians to obtain prior written consent for their minor child(ren) to participate in any protected information survey, analysis, or evaluation, if the survey is funded in whole or in part by a program of the U.S. Department of Education.

Parents/eligible students also shall be notified of and given opportunity to opt their child(ren) out of participation in the following activities:

- Any other protected information survey, regardless of funding;
- Any non-emergency, invasive physical exam or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of a student, except for any physical exam or screening permitted or required under State law; and
- Activities involving collection, disclosure, or use of personal information obtained from students for marketing or to sell or otherwise distribute the information to others.

Parents/eligible students may inspect, upon written request and prior to administration or use, materials or instruments used for the collection, disclosure, or use of protected information.

PPRA requirements do not apply to evaluations administered to students in accordance with the Individuals with Disabilities Education Improvement Act (IDIEA).

Parents of students scheduled to participate in activities protected under the PPRA must receive individual notice and an opportunity to opt out of the activity. If the district (school) cannot identify the approximate dates of the activities, it must provide this notification once the activity is scheduled (PPRA Forms 09.14 AP.122).

*General questions related to PPRA should be directed to Denine Sergeant or Claudia Godbey at 606-784-8928. If you have specific questions regarding personally identifiable information that is collected at your child's school, please contact the building principal for more information.

FERPA-Notice of Rights under the Family Education Rights and Privacy Act (09.14) 2025-2026

The Family Educational Rights and Privacy Act (FERPA) affords parents and "eligible students" (students over 18 years of age or who are attending a postsecondary institution) certain rights with respect to the student's education records. They are:

- (1) The right to inspect and review the student's education records within 45 days of the day the District receives a request for access.

Parents or student who has reached age 18 should submit to the school principal/designee a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

- (2) The right to request the amendment of the student's education records that the parent or student who has reached age 18 believes are inaccurate, misleading, or in violation of the student's privacy or other rights.

Parents or student who has reached age 18 may ask the District to amend a record that they believe is inaccurate, misleading or in violation of privacy or other rights. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate, misleading, or in violation of their privacy or other rights. If the District decides not to amend the record as requested by the parent or student who has reached age 18, the District will notify the parent or student who has reached age 18 of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or student who has reached age 18 when notified of the right to a hearing.

- (3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

The district may disclose records to school officials with legitimate educational interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school Board; a person or company with whom the district has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the district shall disclose education records without consent to officials of another school district in which a student seeks or intends to enroll or to other entities authorized by law.

- (4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA.

The name and address of the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
600 Independence Avenue, SW
Washington, DC 20202-4605

(5) The Superintendent or the Superintendent's designee is authorized to release Board approved directory information. Directory information is information contained in an educational record which would not generally be considered harmful or an invasion of privacy if disclosed. This information may be released without consent. This information shall include student names, addresses, telephone numbers, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and most recent educational institution attended by student.

Any eligible student, parent, or guardian who does not wish to have directory information released shall notify the Superintendent in writing within 30 calendar days after the Annual FERPA Notice has been distributed.

The written request must specifically state what information may not be classified as "Directory Information." The Rowan County School District keeps educational records in a secure location in each school and Board office.

The Rowan County School District obtains written consent from a parent or eligible student before disclosing personally identifiable information to an entity or individual not authorized to receive it under FERPA. Information shall be released to Armed Forces recruiters and institutions of higher education upon their request without consent.

- (6) For students who have been determined eligible for Special Education, educational records will be destroyed at the request of the parent when they are no longer needed to provide educational programs of services.

The Rowan County School District may destroy the educational records of a child without a parent's request five years after they are no longer needed to provide educational programs or services. Parents are advised that data contained in the records may later be needed for Social Security benefits or other purposes. The Rowan County School District may retain for an indefinite period of time, a record of the student's name, address, telephone number, grades, attendance records, class attended, grade level completed, and year completed.

Written Policies and Procedures have been developed which describe the district's requirements regarding the confidentiality of personally identifiable information. There are copies in the Principal's office of each school, and in the Board of Education office. Copies of these Policies and Procedures may be obtained by contacting:
