

A Way Back In The Record

125 YEARS AGO SEPTEMBER 5, 1901

• In the circuit court yesterday, Nix Parks was given two years in the penitentiary for breaking insulators on a telephone line in this county. This is probably the first conviction in the state under the new law to protect telephone and other lines. Another boy, named Tom Naylor, was arrested at the time Parks was captured, but he was allowed bail in the sum of \$300, which he forfeited.

• Two men fought at Davistown over the payment of five cents. One of the men received a severe pistol shot in the side.

• The Graded Schools will open Monday, and indications are that the attendance will be larger than ever before. The Record is requested to urge upon patrons the necessity of sending pupils on the first day, as it causes much confusion to have them straggling in after the classes are organized, and in other ways delays the work. Send the urchins early Monday, and then cut a beech limb and see that they go every day.

• Born, on the 2nd, to the wife of G.J. Salter, an 8-1/2 lb. girl.

• Miss Bettie Francis commenced teaching the public school at New Hope Monday - she had 53 scholars.

• On Wednesday the 28th, at 12:30 Mr. Leslie Green and Miss Alice Guley were united in the holy bonds of wedlock by Elder Meldrum, in a most beautiful and impressive ceremony.

120 YEARS AGO SEPTEMBER 7, 1906

• While fishing in the lake has been fine, yet the greatest pleasure and feature of angling is destroyed by the fact that there are always a number of other fisherman in sight and a fellow is deprived of the privilege of coming home and telling the usual lie about "that big one" he hung, but which got away by breaking the line. Another distressing drawback is the fact that it is impossible to take his jug, as his fellow fishermen would soon make way with the contents. Either of the foregoing draw-backs is distressing enough, but when deprived of both is more than an old-time fisherman can stand. The club should get together and set certain days for just so many to go.

• The second story of the Garrard Bank & Trust Company's building will be built especially for the Bastin Telephone Co., and will consist of several offices, operating room, workshop, waiting room, in fact ever modern convenience for the comfort of the public and the giving of first class service.

• During last week there was upon an average of 350 shots (more or less) heard within the immediate vicinity of the town limits.

These shots were fired by dove hunters. We enquired assiduously and could find no one who bagged more than "8" or "10" birds, and we are forced to the conclusion that there was an unusually large aggregation of poor marksmen in the field, or the game laws were not being adhered to strictly.
