KSP Post 7 Traffic Safety Checkpoints

The Kentucky State Police would like to offer periodic reminders to drivers who travel our roadways. Our agency strives daily to ensure the safety of the motoring public. Some of these proactive measures include various roadside safety checkpoints and saturating known problematic areas in the district through general patrol tactics. The Kentucky State Police utilizes traffic safety checkpoints to promote safety for motorists using the public roadways and to provide a deterrent for those who violate laws contained in the Kentucky Revised Statutes.

The intent of a traffic safety checkpoint is to provide for a high visibility, public safety service, focusing on operator impairment, vehicular equipment deficiencies (confirming appropriate registration and insurance of vehicles) and the valid licensing of drivers. Other violations of law and/or other public safety issues that arise will be addressed.

The checkpoints will allow the Kentucky State Police the opportunity to periodically concentrate its efforts in checking for violations of Kentucky traffic and regulatory laws that will ultimately increase the safety of the citizens within the Commonwealth.

Post 7 serves the following counties: Madison, Clark, Estill, Lee, Owsley, Jackson, Mercer, Boyle, Lincoln, Garrard and Jessamine.

Ephraim McDowell Health consolidating obstetric services

After careful consideration, Ephraim McDowell Health has made the decision to move inpatient obstetric services at Ephraim McDowell Fort Logan Hospital (EMFLH) to Ephraim McDowell Regional Medical Center (EMRMC) effective February 16. This consolidation will best serve the needs of mothers and babies in our community, provide higher acuity services and

reduce the need to transfer fragile newborns shortly after birth.

By concentrating our resources and services, Ephraim McDowell Health can strengthen and elevate obstetric care at its flagship facility—enhancing clinical capabilities while reinforcing long-term sustainability. Ephraim McDowell Regional Medical Center's high acuity, 18-bed unit offers the latest advances in

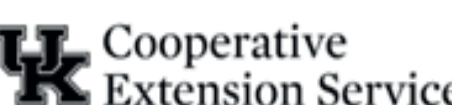

obstetrics and neonatology care including a Level II Special Care Nursery.

The short, 15-minute distance between EMRMC and EMFLH preserves local access to high-quality obstetric care while strengthening the availability of advanced emergency interventions for patients and newborns.

For more information about Ephraim McDowell Health, visit EMHealth.org.
