Growing, changing and moving forward

Chamber Chat
Jill Cutler
Executive Director
Mercer Chamber of
Commerce

Loads of good things are happening this season with fall on the way. It is mind-boggling how many activities Mercer County can hold. It is quite a lot to juggle, just our own many events and activities, while running an office and serving members and the community in so many ways.

Did you know that, so far this year, we have had 300 out-of-town visits at the Chamber and given out 67 new resident goody bags?

We've made 40 new business rental/purchase connections, with several successes. Mercer is an amazing place and others notice. That should make us all proud.

Those numbers also remind us how much is happening in our community. Whether we are welcoming someone who is visiting Mercer County, helping a new resident get acquainted with their new home or connecting a business with an opportunity, there is always something going on. It is exciting to see the continued interest in our community and to play even a small role in helping

Mercer County grow.

It can also make for very full weeks that require great attention and energy. I fully recognize my energy is not what it once was. I have more I would love to give, but it is time for some new blood to lead these big charges.

Our Chamber Foundation has grown significantly, and we see that some adjustments are needed. The Foundation has many opportunities ahead, and I believe I can help move it forward.

I have let the amazing Chamber Board of Directors know that I intend to go part-time starting January 2027. As a result, they will be looking for the next full-time executive director. I hope to overlap with

the new leader to ensure a smooth transition and help maintain service to our large membership.

I am also excited to see what new ideas and energy the next executive director will bring to the Chamber. Every organization benefits from fresh perspectives, and I know our board will work hard to find someone who shares our commitment to Mercer County and its businesses.

Change is hard, but always part of the growing process. I am so proud of this Chamber, the boards that have served and our staff and volunteers. So much of what we accomplish would not be possible without people who are willing to give their time and talents to make our

community better.

I plan to continue supporting the Chamber in many ways. This community and the relationships I have made through the Chamber mean a great deal to me, and going part-time does not mean stepping away from the work and people I care about.

I cannot think of any other organization that shines for our community the way this one does—with its grass-roots approach, depth and breadth. There is much to be proud of, and there is still much ahead for the Mercer County Chamber of Commerce.

I hope you join me in embracing the changes to come and continuing to support the Chamber as we move into this next chapter together.
