FREELANCE CONTRIBUTOR

The Munfordville City Council met in regular session on Monday, February 9, 2026.

With a quorum present and no citizen concerns brought forward, the council moved

zoning regulations to ensure there are no legal interferences with the installation.

“They’re hoping this is going to be up within 28 days or less,” explained Line. “There were no hiccups.”

Properties & Munfordville Sports Complex

Mayor Line announced that the property at 601 Main Street has been sold for \$66,000.

The council then approved replacement signees for the Munfordville Sports Complex checking account to ensure smooth financial operations, with Line explaining the change was simply a formality so the Sports Complex could do business.

An update listed 260 soccer players signed up for spring ball and 140 players registered so far for baseball.

International Relations and Tourism

The Council officially authorized the pursuit of a partnership to make Amesbury, England a sister city to Munfordville. While England refers to these relationships as “twinnings,” the goal is to open doors for international tourism, culture, and education.

Tourism Director Aaron Jagers explained that Kentucky Stonehenge is the primary driver for tourism inquiries, making the connection to Amesbury—the site of the original Stonehenge—a

natural fit.

Line emphasized the symbolic connection by stating, “Amesbury is the gateway to Stonehenge, and our Stone-

henge is the gateway to Munfordville.”

Jagers further clarified that this partnership will come at little to no cost to the city.

through New and Old Business swiftly.

The Kentucky Council of Area Development Districts (KCADD) held its Board of Director’s meeting in Frankfort last week.

Hart County was represented at the meeting by Judge/Executive Judge Choate, who also serves on the KCADD Board and as the Barren River Area Development District (BRADD) Board Chairman.

“KCADD represents local communities

across the Commonwealth in Frankfort through legislative advocacy

ice storm, during which the station was staffed 24/7 for several consecutive days. This ensured that at least one officer and two drivers were on-site at all times, supported by additional personnel.

Michael also informed the Council of a pending grant application intended to offset the approximate \$4,500-per-person cost of outfitting firefighters with necessary gear when expiring gear is replaced. He also explained that the department’s new battery-operated extrication equipment has been received and

is now in service.

Randy Russell provided updates on maintenance operations, noting that the department recently completed four grave openings and is continuing limb-chipping efforts following the ice storm. Russell reported that while snow removal was manageable, the ice proved difficult and required extra hours and labor.

To prepare for future weather events, the department has ordered an additional supply of road salt through the City of Louisville, which has

already been delivered.

There were no citizen concerns brought before the Council during this session.

In closing, Council Member Vickie Rogers provided a brief update regarding the installation of new city limit signs.

Although the timeline was slightly impacted by recent school closures, she noted that the project is moving forward and expressed continued enthusiasm for the upcoming designs being developed by the Caverna School District.
