

Not your normal Days of Our Lives Recap

You know how it is when you walk in a room and somebody shows you a giant glowing tube tanning bed thing and they're like *viola!* And reveals it's your husband's wife who passed away years ago?

That's what happened to Paulina Price.

She told EJ DiMera she was having people come and check into his free clinic building project because it was sucking a humongous amount of electricity, like more than when you use a couple a space heaters in the winter and your bill jumps up 800 extra dollars.

Anyway, EJ said he'd show her. He takes her to the glowing tube room and there was Lexie Carver, lying there like she was sleeping, all frozen in time. Stefano had Dr Rolf freeze her body. Her brain tumor was incurable but now a breakthrough has happened. EJ said his sissy, Alexandra "Lexie" Carver, is on the verge of being resurrected, A.K.A. thawed.

For once, Mayor Price is speechless.

EJ tells her she can pull the plug on the tube that's using a quadrillion kilowatts

of electricity a day and kill Lexie a *second* time...or walk away...

Gwen Rice Chex Von Washcloth continues to freeload at DiMera mansion where she holds a drink and bites her bottom lip 85 percent of the time.

She wants Melinda Trask, cold hearted Salem attorney, to represent her in gaining the Von Washcloth fortune but Trask is representing Gwen's ex-husband DiMitri and refuses to help.

Apparently Gwen was in on EJ's Lexie the Popsicle Project and freaks when he tells her Paulina knows everything. She bites her knuckle in anguish.

Gabi Hernandez is having drinks in Horton Square with Abe and Lexie's son Theo, now a grown man. But since Gabi's upper lip looks as if she's about to sneeze 24/7, Theo sits way back in his chair ready to duck.

Abe is at Brady Pub and tells Roman Brady how different Paulina and his late wife Lexie were/are, but he was lucky enough to have loved them both. Little does he know if Lexie sits up after thawing

out and says, "Howdy," he will have two wives to love again.

Xander and Sarah Horton's daughter Victoria is growing and growing. Still pushed around all over Salem in a stroller, she's big enough now to drape her leg over the side and push it herself with her foot if she wanted to.

She gets very sick and Dr. Sarah takes her to Salem Hospital to see a doctor. Wait a minute. Like, why? Dr. Sarah is a doctor? Anyway, her sickness draws Xander and Dr. Sarah closer from their estranged relationship and Sarah agrees to Xander's visitation.

Paulina goes home to Abe, still traumatized about Popsicle Lexi. He asks her if she found out what EJ was doing in his secret lab to spike the electric bill and make all the lights in Salem blink periodically. She says, "No, I didn't."

Because that was easier than saying his presumed deceased wife was on defrost.
